

# PolarDAM™ Air Dam Skirts & Barriers

Seal various gaps below and between racks

## Effective Airflow Control

PolarDAM™ Air Dam Skirts and Barriers maximize air conditioning by keeping cooling air where it belongs. They are ideal for preventing bypass air around and between racks, PDUs and other equipment.

## Easy to Deploy

The PolarDAM™ Air Dam Skirts and Barriers easily attach with either a magnetic or velcro strip. The material is 40 mil thick and can be cut with heavy scissors to make alternative sizes.

## Data Center Safe

The PolarDAM™ Air Dam Skirts and Barriers are fire retardant and meet the UL rating of UL-94-V0. The fire retardant polypropylene material is strong, chemical resistant and does not absorb moisture. It is RoHS compliant.
