

PolarPlex™ Self Standing Panels

Product Information Sheet

PolarPlex™ Self Standing Panels

Polargy's PolarPlex™ Self Standing Panels are an ideal containment solution for gaps between racks and at the end of rows. They are made with our PolarPlex™ Standard Containment Panels and stand alone using supporting legs with leveling feet.

Lightweight and Flexible

The PolarPlex™ Containment Panels are lightweight, durable, and easy to handle. The panels are constructed of clear fire safe inserts secured with rigid aluminum tube framing.

Sizes

Standard 24" x 80" and 24" x 84" sizes are available and are also built to custom heights and widths.
