

## Containment Projects with Successful Outcomes

PolarPlex™ Suspended Panel System

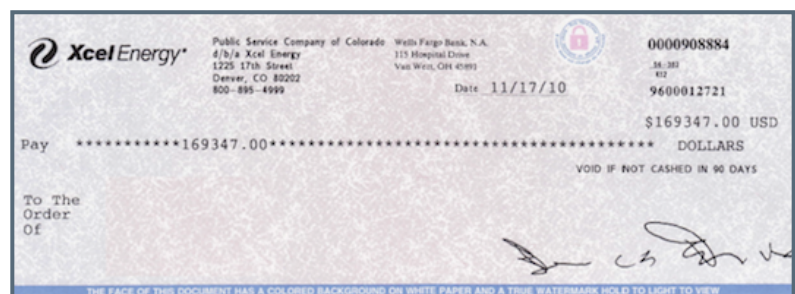

PolarPlex™ P2 Adjustable Height Sliding Door

Polargy is the leading manufacturer and turnkey solution provider of data center hot and cold aisle containment systems. We help our customers achieve successful outcomes for their airflow improvement projects. Polargy's containment systems are installed across the world with customers including Verizon, Facebook, Pixar Animation, and Dell.

### Retrofit Projects

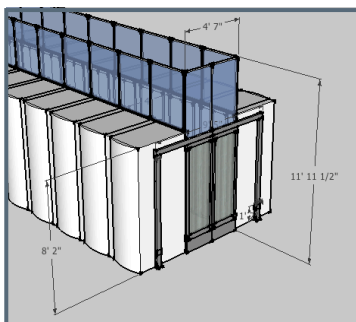

Meeting customer ROI goals and safely transitioning to new cooling environments are priorities for Polargy. Typical results for our customers include capturing stranded capacity, eliminating hot spots, and saving energy.

Utility Rebates

### New Construction Projects

With Polargy at the helm, containment projects go quickly and smoothly. This is especially important as containment is the last phase of any project. Polargy's informed designs, intuitive line of products and experienced installers help ensure on time delivery of single site or multi-site projects.
